ABOUT ME

Recent B.Tech graduate in Computer Science and Engineering with a strong foundation in web development, data structures, and programming. Passionate about building scalable applications and eager to start my career as a Software Developer while continuously learning new technologies. A quick learner with strong problem-solving abilities and a keen interest in contributing to innovative and impactful software projects.

PROJECTS

WebCraft.AI - Ai website builder [Live](#) | [Code](#)

Engineered WebCraft AI, a MERN-based platform delivering responsive and efficient web solutions. Utilized DeepSeek AI to power smart automation and content generation capabilities.

- Implemented WebCraft AI using MERN stack (MongoDB, Express.js, React, Node.js) for full-stack web application development
- Designed and implemented responsive UI with React for improved user experience

Virtual Assistant [Live](#) | [Code](#)

Developed a Virtual Assistant application using the MERN stack to deliver seamless full-stack functionality and user interaction. Integrated Google Gemini API to enable AI-powered responses, task automation, and intelligent conversation handling.

- Designed an interactive and responsive frontend using React for smooth user experience
- Created RESTful APIs with Node.js and Express.js for efficient backend processing
- Integrated Google Gemini API for AI-driven conversations and smart task execution

Task Management System [Live](#)

A web-based Task Management System developed using HTML, CSS, and JavaScript that allows users to efficiently create, organize, update, and track their daily tasks.

- Implemented functionality to add, edit, delete, and mark tasks as completed
- Designed a clean and user-friendly UI for better user experience

TECHNICAL SKILLS

Languages: C, C++, Java, Python, HTML, CSS, JavaScript

Tools: Linux, Vs Code, Vercel, Render, Netlify, Git/Github

Frameworks : ReactJS, NodeJS, NextJS, TailwindCSS, ExpressJS, NextAuth, MongoDB, RESTful APIs, JWT

EDUCATION

B.Tech in Computer Science and Engineering

Sunder Deep Engineering College

Dasna, Ghaziabad, 2022-2026

High School & Intermediate

JD Public Inter College

Meerut Road, Hapur, 2018-2022

Achievements

- Led a 5-member cross-functional team during the final year capstone project, successfully managing sprint timelines and resolving technical conflicts to deliver the application 2 weeks ahead of schedule.
- Committed to continuous technical growth, independently mastering advanced framework technologies like Next.js through self-paced learning and successfully implementing them in personal projects.
